## Delft-FEWS 2014.01 Bugfixes

Key	Summary	Component/s	Release Note Text Description	Release Note Text	Config Example	Images
FEWS-10918	Login from ConfigManager broken	App - Configuration Manager Gui				Login Warning  Could not log in to Master Controller and start synchronisation.  time == Long.MIN_VALUE  OK
FEWS-10556	FSS hotstart functionality broken.	App - Forecasting Shell Server				
FEWS-10709	java.lang.lllegalArgumentException: taskRunld none only allowed for local datastore	App - Forecasting Shell Server				
FEWS-11044	Direct data access writes wrong timestamps to MSQL server	App - JDBC driver				
FEWS-10649	Logout in OCSessionImpl creates an invalid MsgRequester	App - Master Controller Server				
FEWS-8861	-dateTimeFormat>dd-MMV-yyyy kk:mm-c/dateTimeFormat> leads to hrs- indication of "25" iso "24"	App - Operator Client Gui				Compared   Compared
FEWS-10889	Change T0 only works if you use the toggle and date options, not if you manually enter the date/time	App - Operator Client Gui				
FEWS-10675		App - Operator Client Gui				
FEWS-10572		App - Operator Client Gui				
FEWS-10670		App - Operator Client Gui				
FEWS-11319		Configuration, Plugin - Gui - Map				
FEWS-10663	Polygons.xml. Log config error when shape id column in dbf contains duplicates	Configuration				
FEWS-10837	opendap import incorrect in 2013.2 while correct in 2012.2	Configuration				
FEWS-10740		Database				
FEWS-10535	Error while writing time series array to data store: Illegal method call Times are not ascending	Database				
FEWS-10251	Failed to query number of connections	Database	Central database is not upgraded to 2014.01, skip check for maximum number of connected operator clients			
FEWS-10252	Let DBA work with new SQLServer driver	Database				
FEWS-10634	Opening the workflow navigator causes a message about the corresponding logger, even if that has been specified	Debug Tool - Workflow Navigator				

		T	I		0.5.5
