

Navigating around the Pathways Generator

Navigating around the Pathways Generator: Pathways screen

Export pathway image/table data (.png, .emf, .csv)

Save pathway file (.pathway)

Add/Delete action/pathway

Raise/Lower action in pathways table (affects drawing order)

Toggle display between full screen pathways map, split screen map/table, or full screen table

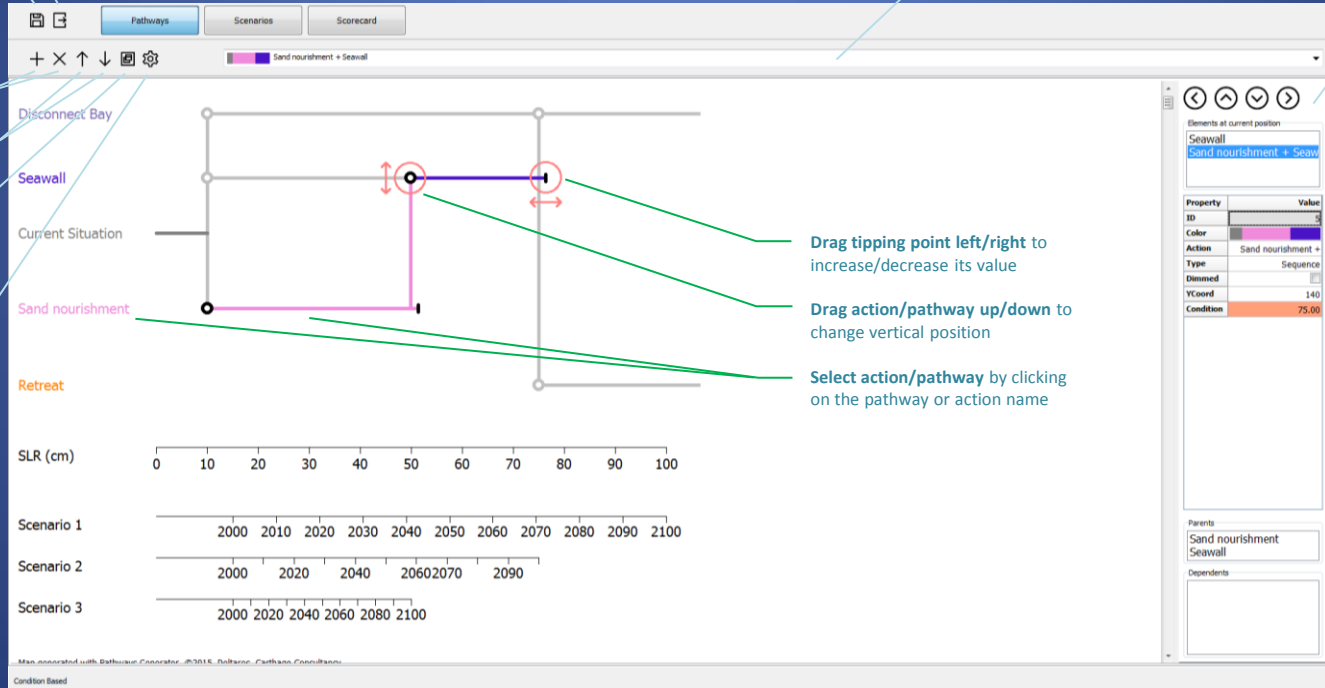

Map settings
e.g. axis labels, scales, map height/width, etc.

Pathways screen selection button

Scenarios screen selection button

Scorecard screen selection button

Select Action/Pathway dropdown list

Drag tipping point left/right to increase/decrease its value

Drag action/pathway up/down to change vertical position

Select action/pathway by clicking on the pathway or action name

Nudge pathway up/down/left/right to fine tune appearance of pathways map, e.g. to display multiple underlying vertical pathway lines

View/Select underlying elements

View/Edit pathway properties

e.g. colour, pathway type, dimming, vertical position, tipping condition value

View/Select parent actions

View/Select dependent actions

Navigating around the Pathways Generator: Scenarios screen

Export scenarios table data (.csv)

Save pathway file (.pathway)

Pathways screen selection button

Scenarios screen selection button

Scorecard screen selection button
