

Delft-FEWS Admin Interface - Forecast Tasks

- [Scheduled Tasks](#)
- [Running Tasks](#)

The **Forecast Tasks** menu contains the following options, see image below.

This set of pages display information about the scheduled and active tasks within the Delft-FEWS. The definition of these is as follows:

| | |
|------------------------|--|
| <i>Scheduled Tasks</i> | Tasks that are scheduled (one-off or repeating) within this Master Controller |
| <i>Running Tasks</i> | Tasks that have been dispatched and are currently being processed |
| <i>Task Runs</i> | Display tasks that have been processed. Can be accessed from the scheduled tasks page. |
