The Scope document (layman's report)

Audience: managers, authorities, consultants
(People who need to be aware of the OpenMI but do not need to know how it works)

Suggested Title : What is the OpenMI?

What do they need to know:

- What do you gain when you use OpenMI compliant software
- OpenMI can be used to join models together to achieve integrated modelling and analyse process interaction
- OpenMI can be used to develop decision support systems in which models are embedded and linked
- OpenMI is supported/maintained by the Association and these organisations are behind it
- OpenMI has been used for these purposes ...
