OpenMI basic concepts

Audience: (managers, consultants)
people who need more detailed knowledge to decide if OpenMI is useful for them, stimulating them to commission OpenMI related work

Title: The concepts behind OpenMI

What should it tell:
The conceptual model behind OpenMI (pull-driven, temporal/non-temporal, spatial)

Contains portions of current docs. A,B,C

Action PG: will identify sections from A,B,C to be combined (due 15/11/08)
action SM: will compose a new document by combining those sections in a sensible order (due 31/12/08, lower priority)

Timeline:

• compose current version from text of A,B,C (due 31/12/08)
• draft upgrade to version 2 by July 2008?
