

Admin Interface - Forecast Tasks

- [Scheduled Tasks](#)
- [Running Tasks](#)
- [Module Run Times - 2021.02 and later](#)

The **Forecast Tasks** menu contains the following options, see image below.

This set of pages display information about the scheduled and active tasks within the Delft-FEWS. The definition of these is as follows:

<i>Scheduled Tasks</i>	Tasks that are scheduled (one-off or repeating) within this Master Controller
<i>Running Tasks</i>	Tasks that have been dispatched and are currently being processed
<i>Task Runs</i>	Display tasks that have been processed. Can be accessed from the scheduled tasks page.
