As a knowledge institute, it is important for Deltares to be at the forefront of **knowledge development**, both in **national and international** settings. One of the activities organised by Team Salinisation is a yearly [lecture series](#).

Impact

Deltares contributes to many impactful publications on salinisation topics, including:

Cooperations

Deltares is active in several cooperative programmes:

- [Knowledge Program Hydraulic Structures](#)
- [PIANC](#)
- [AquaConnect](#)
- [SALTISolutions](#)

Salinisation Lectures

Team Salinisation organises a yearly lecture series. If you would like to be notified when a new lecture series is announced, please send a message to salinisation@deltares.nl.

2022

Open the Gates!

Flow patterns, stratification and salt dispersion in a former estuary after reintroducing seawater inflow

Wouter Kranenburg & Meinard Tiessen
Co-authors data-analysis: Meinte Blaas, Nathalie van Veen
Co-authors modelling: Theo van der Kaaij, Luuk van der Heijden
Acknowledgement: Rijkswaterstaat, Karin Stone, Aad Fioole

2021 >>

Salt intrusion in estuaries around the world under influence of climate change

MSc internship Avelon Gerritsma Spring 2021

Supervisors:
Wouter Kranenburg (Deltares) &
Albrecht Weerts (Wageningen University, Deltares)

Continuation:
Stendert Laan
Daan van Keulen
