- Newsletters
 - Use cases from the OpenMI LIFE project
- Posters
 - OpenMI Association (action NTUA+RVM) due 01/04/08
 - OpenMI Standard (action NTUA+RVM+JBG) due 01/04/08

OpenMI Association organisation documents

Medium: www.openmi.org (members area)

Control: OAEC

Usage: printed form

Audience: OA-members

- Charter (content done, formatting needed, action CIT+SM)
- Standing Orders (content ongoing, action RVM to complete, RVM+SM to format)
- Strategy (content draft on wiki, all to review, OAEC to approve, RVM+SM to format) draft 31/01/08, final 28/02/08
- Implementation plan (content to be setup, depends on strategy outcome, action OAEC)
- Procedures
 - produce template (1 page) action SM
 - standard upgrade procedure (content OAEC ongoing)
 - software release (content OATC ongoing)
 - change requests (content OATC ongoing)
 - test and component acceptance (content OATC ongoing)
 - document and website management (OADC)
 - membership administration (OADC)

Modellers guidance documents

Medium: wiki.openmi.org

Control: OATC

Usage: search/browse webpage

Audience: technical users, software developers

- What is the OpenMI for developers
- How to (using the SDK)
- Using the GUI (online help)

Developers documents

Medium: wiki.openmi.org

Control: OATC

Usage: search/browse webpage

Audience: technical users, software developers

- What is the OpenMI for developers
- How to (using the SDK)
- Using the GUI (online help)
