

OpenEarthTools OpenDelft3D GoogleEarth plotting session

Nov 2nd

Wednesday Nov 2nd there will be a free sprint session on Matlab pre- and postprocessing of [OpenDelft3D](#) featuring a free hands-on training in plotting model results in Google Earth with [OpenEarthTools GooglePlot](#) toolbox. The [DelftDashBoard](#) and [QuickPlot](#) pre- and postprocessing GUI's will also be discussed.

Please sign up via: <http://www.delftsoftwaredays.nl/index.php/register-for-the-delft-software-days-2011> and tick "Open Source Pre- and Postprocessing Workshop (free)".

Join, bring your own laptop, your own Delft3D model schematisation and view your own model as the Delft3D examples below.
