

Climate Proof Fresh Water Supply

Project description [Climate Proof Fresh Water Supply](#)

[see also official web-site](#)

Project Joost Delsman (WP2.1):

Adapting to drought and salinisation in the coupled groundwater – surface water system

Presentation meeting SWIM 2012, Búzios, Brasil

Poster presented on EGU congress:
'Uncertainty in mixing models: a blessing in disguise?'

Project Pieter Pauw (WP2.2): Fresh water lenses in saline seepage regions under climate stress

Poster SWIM 2012: Pieter Pauw,
Large scale drainage measures to
increase freshwater supply from
sandy creek deposits
