How to define an ExplorerTask - what are the possible taskClass options?

⚠ Page under construction

⚠ Instead of using a taskClass, notice the recommended use of the elements predefinedDisplay or displayConfigFileName instead! all the below is an obsolete way of configuration!

Name	taskClass	arguments	description
Run Info Panel	nl.wldelft.fews.gui.plugin.runinfo.RunInfoPanel		
Time Series Editor*	nl.wldelft.fews.gui.plugin.timeseries.PlotsTimeSeriesDialog		
Topology Panel	nl.wldelft.fews.gui.plugin.forecast.TopologyPanel		
Grid Display	nl.wldelft.fews.gui.plugin.grid.GridDisplay	id of grid display (required)	
Manual Forecast Dialog	nl.wldelft.fews.gui.plugin.manualforecast.ManualForecastDialog		
Forcast Management Dialog	nl.wldelft.fews.gui.plugin.forecast.ForecastDialog		
System Monitor Dialog	nl.wldelft.fews.gui.plugin.systemmonitor.SystemMonitorDialog		
Modifiers Panel	nl.wldelft.fews.gui.plugin.modifiersdisplay.ModifiersPanel		
~~Map Display**~~	nl.wldelft.fews.gui.plugin.map.MapDisplay		
Workflow Navigator	nl.wldelft.fews.gui.plugin.workflownavigator.WorkflowNavigator		
Time Series Table	nl.wldelft.fews.gui.plugin.timeseriestableviewer.TimeSeriesTableViewer		
Thumbnails Dialog	nl.wldelft.fews.gui.plugin.displaythumbnails.ShortcutsThumbnailsDialog		
Correlation Dialog	nl.wldelft.fews.gui.plugin.correlation.CorrelationDialog		
Forecaster Help (document)	nl.wldelft.fews.gui.plugin.information.ForecasterAidDocumentPanel		
Segment Selection Dialog	nl.wldelft.fews.gui.plugin.selection.SegmentSelectionDialog		
Forecaster Help (selection)	nl.wldelft.fews.gui.plugin.information.ForecasterAidSelectionPanel		
	nl.wldelft.fews.gui.plugin.information.ReportArchivePanel		
Segment Selection Logger	nl.wldelft.fews.gui.plugin.logger.SegmentSelectionLoggerPanel		
Time Series Plots*	nl.wldelft.fews.gui.plugin.timeseries.PlotsTimeSeriesDialog	graph, table (optional)	
Time Series Editor*	nl.wldelft.fews.gui.plugin.timeseries.DataEditorTimeSeriesDialog		
Schematic Status Display	nl.wldelft.fews.gui.plugin.scada.ScadaDisplay	id of SSD display (required)	
Times Series Dialog*	nl.wldelft.fews.gui.plugin.timeseries.TimeSeriesDialog		
~~Taskrun Dialog**~~	nl.wldelft.fews.gui.plugin.taskRunDialog.TaskRunDialogFewsExplorerPlugin		
~~What if Scenario Dialog**~~	nl.wldelft.fews.gui.plugin.scenario.WhatIfScenarioDialog		
Threshold Skill Score Dialog	nl.wldelft.fews.gui.plugin.thresholdskillscore.ThresholdSkillScoreDisplay		
~~Lookup What if Scenario Dialog**~~	nl.wldelft.fews.gui.plugin.lookupscenario.LookUpWhatIfScenarioDialog		
~~Objective Analyzer Display**~~	nl.wldelft.fews.gui.plugin.objectiveanalyzer.ObjectiveAnalyzerDisplay		
~~Trend Display**~~	nl.wldelft.fews.gui.plugin.trend.TrendDisplay		
Threshold Overview Display	nl.wldelft.fews.gui.plugin.thresholdoverview.ThresholdOverviewDisplay		
Web Browser Display	nl.wldelft.fews.gui.plugin.webbrowser.WebBrowserDisplay		
Forecast Product Info Panel			

*There are several options to get a graph:

- nl.wldelft.fews.gui.plugin.timeseries.TimeSeriesDialog
- nl.wldelft.fews.gui.plugin.timeseries.PlotsTimeSeriesDialog
- nl.wldelft.fews.gui.plugin.timeseries.DataEditorTimeSeriesDialog
- nl.wldelft.fews.gui.plugin.timeseries.EditorTimeSeriesDialog
