

# Neo4j

## blocked URL Neo4j

[Neo4j](#) is the most used open source Graph Database software at this moment.

It comes with a standard web interface.

Interaction with the database can also be done using a variety of software e.g.

- Java
- Python (e.g. [Py2Neo package](#))
- R (example code [here](#) ([Rneo4j package](#)) or [here](#) (using [RCurl](#) and [RJSONIO](#)))
